**Crisis Management: Understanding and Supporting our Special Needs Families**

**Discussion Questions:**

1. Did this discussion highlight any forms of crisis you were unaware of?
2. How are the struggles of SN families different? How are they the same?
3. What practical form of help are you most excited about?

**Takeaways:**

- Create a safe space where Special Needs students and families can share their truths.
- Many of the outside resources for Special Needs families are unavailable currently. This means they need extra grace.
- Parents need folks to show up in tangible ways. Consider coming alongside a family in one practical way during this time.
